of his cost and sorrebed his arm; still no sing or halls struck him. He turned on his heels to run mighty sudden. He still grasped the red lamp in his left hand, and while going for bare life the engineer of the on coming train seen it swinging and siscked steam. It was the opportune advent of the train no doubt, that prevented the murderous villians pursuing and killing the switchman. The train came to a dead halt before reaching the bridge, and so did the switchman. An inspection of the timbers satisfied the conductor and engineer that it would be dangerous to pass gineer that it would be dangerous to pass over it in that condition. The railroad hands had to be called out and repairs effected before the train started on its way gineer that it would be dangerous to pass
over it in that condition. The railroad
hands had to be called out and repairs effected before the train started on its way
to the city. This is why the train that
was due here at 2:30 did not arrive till
after six yesterday morning. The only
explanation that can be given of the diabolical attempt to wreck the train is that
it was intended to ditch it, and then "go
through" the helpless and scared passenthrough" the helpless and scared passen-gers as well as the express agent who was suspected of having considerable funds in convertible green backs in his charge. It is the most fiendish thing we have
